ShopBot Offers Turnkey CNC Packages

Dust collector and other accessories allow for quick startup time

Durham, NC (November 18, 2008) – In its continuing effort to get customers up and running on their ShopBot CNCs as quickly and easily as possible, ShopBot Tools offers turnkey CNC packages for a variety of applications, from cabinets to signs. The option of purchasing accessories when purchasing a ShopBot CNC router assures that ShopBot customers have the proper tool for the work they plan to do with their ShopBot and the additional components necessary to immediately get the best performance possible.

ShopBot's newest accessory is a Delta dust collector, available as part of a turnkey CNC package or as an accessory for a currently owned ShopBot. The Delta model 50-850 dust collector features a 1.5 horsepower motor, pulling 1,200 cubic feet of air per minute (CFM). In addition to dust collectors, available accessories include routers, spindles, vacuum blowers, air drills and fourth-axis indexers. Basic design, machining and control software are included in the purchase price of every ShopBot to make it as easy as possible to incorporate CNC technology quickly; however, advanced specialized software is also available directly from ShopBot. Convenience and support do not end with the purchase of a ShopBot. With some of the best technical assistance in the industry and an online peer network (www.talkshopbot.com), help is never more than a phone call or a mouse click away.

(Prices subject to change)

About ShopBot Tools, Inc.

ShopBot Tools, based in Durham, N.C., designs and manufactures low-cost, high-value Computer Numerically Controlled (CNC) cutting machines. ShopBot was founded by CEO Ted Hall, Ph.D., a Duke University professor of neuroscience, who developed the tool while building plywood boats as a hobby. After several years of development, the company began shipping tools in 1996. With more than 5,000 ShopBots in 54 countries, ShopBot is one of the largest producers of CNC routers for woodworking and plastics in North America. The company employs 25 people in the Durham, N.C. area. For more information, visit www.shopbottools.com.
