

PRODUCT LAUNCH SPECIAL

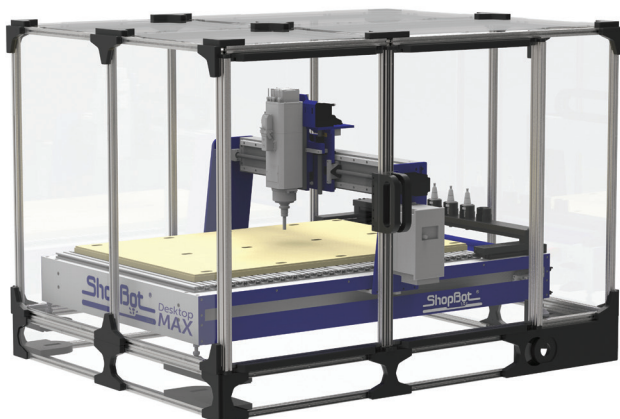

ShopBot Desktop MAX ATC

Meet the ShopBot Desktop MAX ATC, the newest addition to our desktop tool line. The Desktop MAX ATC has all of the same capabilities of the popular Desktop MAX but has the additional power and efficiency of an Automatic Tool Changer (ATC). An ATC reduces production time by quickly and robotically changing cutters between tool paths, eliminating the need to change and zero tools individually. The ShopBot Desktop MAX ATC has a 36" x 24" work area, and is available with two different deck options: a universal vacuum hold down deck or an aluminum deck, which can be partially or completely removed for a wide variety of end-milling and edge work.

Starting at:
\$14,950.00

Purchase the new ShopBot Desktop MAX ATC with the Invision Full Enclosure and get \$100 off!

Invision Full Enclosure

The Invision Full Enclosure allows you to keep hands safely out of your tool's cutting area, keep chips and dust off your floor, and dampen down the noise generated while your tool is in use – all while still providing a 360° view of your work in progress. The enclosure is fully safety interlocked, motion will stop and the spindle will automatically turn off when the doors are opened. *Assembly required.*

Invision Enclosure for Desktop MAX ATC:
\$1,500.00
